REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicants arguments in the 01/21/2010 Appeal Brief starting at page 6 line 8 and continuing on page 7 is correct. The Examiner did misinterpret the "measurement of interface forces tangent to the two dimensional manipulandum workspace" of Adelstein for longitudinal axis (C) illustrated in Figure A on page 7 of the 01/21/2010 Appeal Brief. When the sentence on page 8 second column first full paragraph last sentence of Adelstein "The miniature joystick and decoupler arrangement allows measurement of interface forces tangent to the two dimensional manipulandum workspace, without responding to pure moments applied at the handgrip " is read in light of the Hardware Implementation section which the sentence is a part of then the movement tangent is direction tangent (B) illustrated in Figure A on page 7 of the 01/21/2010 Appeal Brief. For this reason:

Adelstein does not teach the claimed "the linkage further configured to allow the manipulandum to move in a translational degree of freedom through an aperture of a portion of the linkage along the longitudinal axis" of claim 82 and the prior art of record fails to teach or suggest modifying Adelstein to have this claim limitation; and

Adelstein does not teach the claimed "a first member coupled to the shaft of the manipulandum and having an aperture configured to allow the manipulandum to move along the longitudinal axis in a translational degree of freedom with respect to ground" of claim 90 and the prior art of record fails to teach or suggest modifying Adelstein to have this claim limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffery A. Brier whose telephone number is (571) 272-7656.
